AYUSH KUMAR

Lucknow | ayushsaha111@gmail.com | https://ayushsaha1018.github.io/portfolio/

WEB DEVELOPER

A full stack web developer with months of experience. Built some good projects to showcase my skills.

PROJECTS

Github Finder

- A React app to search GitHub profiles and see profile details.
- This app uses Github Rest API to get the users profile. It displayes data such as user's name, username, github profile link, location, website, twitter link, number of followers, following , public repos, and public gists.

House Marketplace App

- A react app to put your apartment on rent or sale.
- It also allows customers to buy a listed apartment by contacting the landlord.
- Customers can also see apartments that are on sale, also the apartments that are on sale or rent separately. The listing also shows the location of the apartment on a map.

Gardenia

- Developed landing page of a startup named gardenia.
